

***Environmentally Responsible Asset Disposition
It's Good Business***

Knowing you would want to be compliant with current state and EPA regulations and guidelines regarding your retired IT assets, RESULTS Technology provides you with Worry Free AD. As an added benefit, revenue sharing may provide an income stream for you.

Current regulatory pressures on both data security and e-waste management have been steadily mounting. Potential legal liabilities and negative publicity are compelling responsible companies to properly dispose of their retired data and IT hardware. This is where RESULTS Technology can help you.

RESULTS provides a secure, efficient and proven approach to disposing of retired IT assets. The strength of our offering is in our verifiable process and reporting which means you can expect bottom-line results.

- ❖ Department of Defense (DOD) compliant data removal software meets standards as outlined in the DOD 5220.22-M protocol
- ❖ Security of knowing that this hard drive erasure eliminates risks of company, customer and personal information disclosure
- ❖ HIPAA, GLB, FACTA, SOX Compliant
- ❖ Residual value (when applicable) on equipment that can be remarketed which help you decrease the cost of new equipment by utilizing your resale proceeds
- ❖ Accurate reporting that includes asset details which ensure reconciliation of client's records and initiate the chain of custody by paper or through the web portal.

By engaging RESULTS to perform your asset disposition, you will realize significant savings in time, money and space. Benefits our customers have seen include:

RESULTS process is unique...	Save:		
	Time	Money	Space
Inbound scan for tracking	x	x	x
Diagnose asset configuration	x	x	x
Secure warehousing of equipment	x	x	x
Marketing experience	x	x	
Resale of operable equipment	x	x	x
Provide documentation	x	x	

RESULTS strictly adheres to a proprietary process that is compliant with EPA guidelines for environmentally responsible disposal of outdated IT equipment. We are committed to the philosophy:

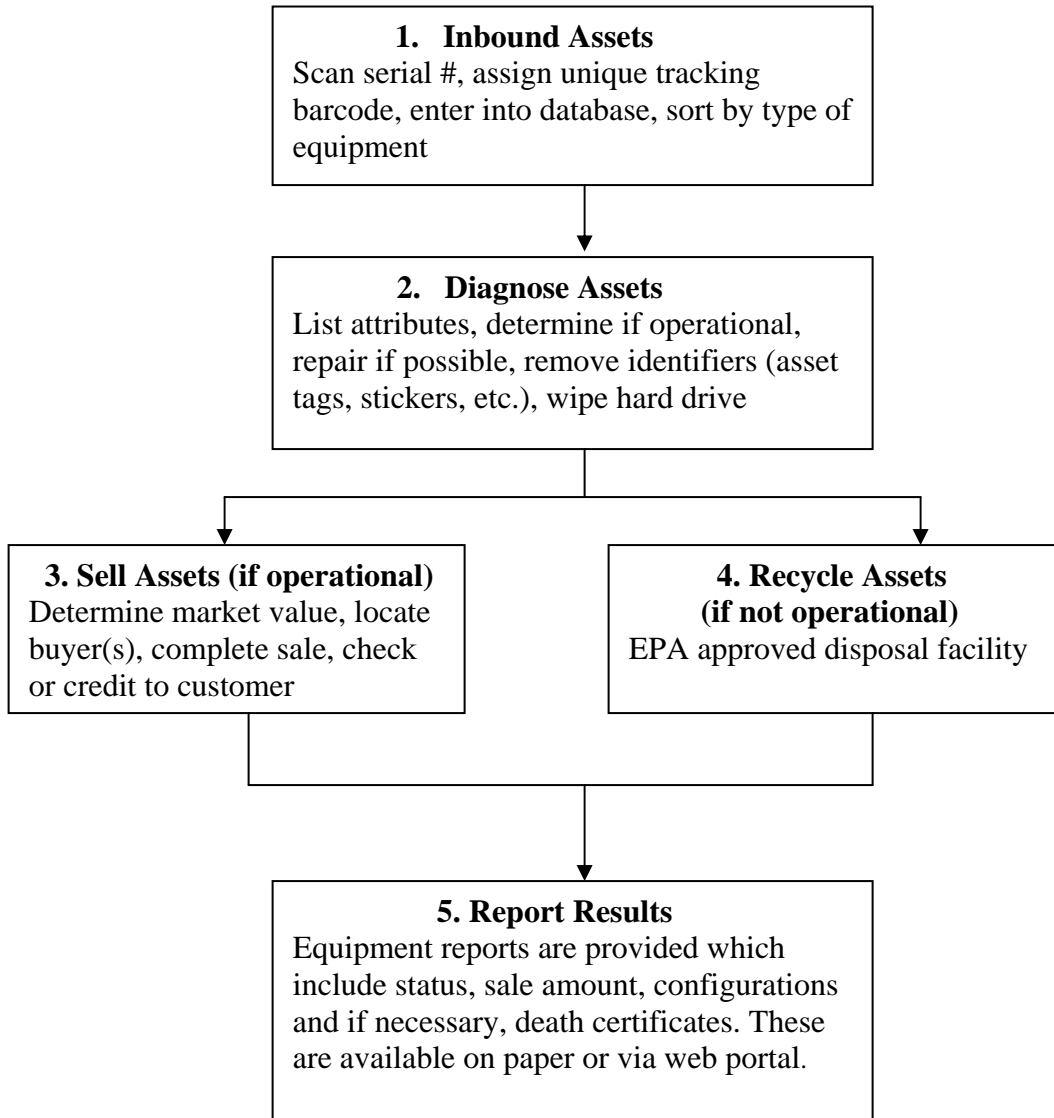

RECYCLE*REUSE*RESPECT
